# Alishan Group of Companies:

## A Legacy of Growth and Excellence

**Founded in 1988** in the small town of Kantabanji, Odisha, by visionary leader **Mr. Kishanlal Agrawal**, the **Alishan Group** of Companies began as a modest mining operation. Over the years, it has evolved into a multi-faceted conglomerate with a presence in **Odisha, Chhattisgarh, and New Delhi**. The group's journey is marked by significant milestones, including its footprints in construction, textiles, hospitality, FMCG, entertainment, and renewable energy.

**In 2011**, the group ventured into the textile industry with Alishan Ginning Mills, contributing to India's cotton trade, followed by the launch of its first hotel in **2014** to establish a presence in hospitality. By **2018**, the group diversified into FMCG, offering trusted products to households, and in **2020**, it entered the renewable energy sector with Alishan Green Energy Pvt. Ltd., specializing in solar module components.

Today, **Alishan Group** is functional across seven pivotal sectors like **mining, construction, hospitality, textiles, FMCG, entertainment, and energy**—consistently pushing the boundaries of innovation and establishing unparalleled standards of excellence. Guided by its core values of integrity, quality, and customer satisfaction, the group is committed to driving growth and innovation while embracing sustainability. From its humble beginnings to becoming a trusted name across industries, the Alishan Group's journey reflects resilience, diversification, and a vision for a brighter future.

# A New Era in Renewable Energy

**Alishan Green Energy Pvt. Ltd.** stands as a beacon of progress in the renewable energy sector, addressing the nation's growing need for sustainable solutions. With a state-of-the-art facility, the company boasts an impressive production capacity of **4.2 GW Encapsulant** and **3 GW Backsheet**, making it a leading player in the solar industry.

Our **Encapsulants** are designed to enhance the reliability of photovoltaic modules, ensuring seamless integration with cutting-edge solar technologies. **Alishan Encapsulants** leverage advanced formulations to deliver exceptional optical clarity, thermal performance, and electrical insulation, enabling solar modules to perform at their best under diverse conditions.

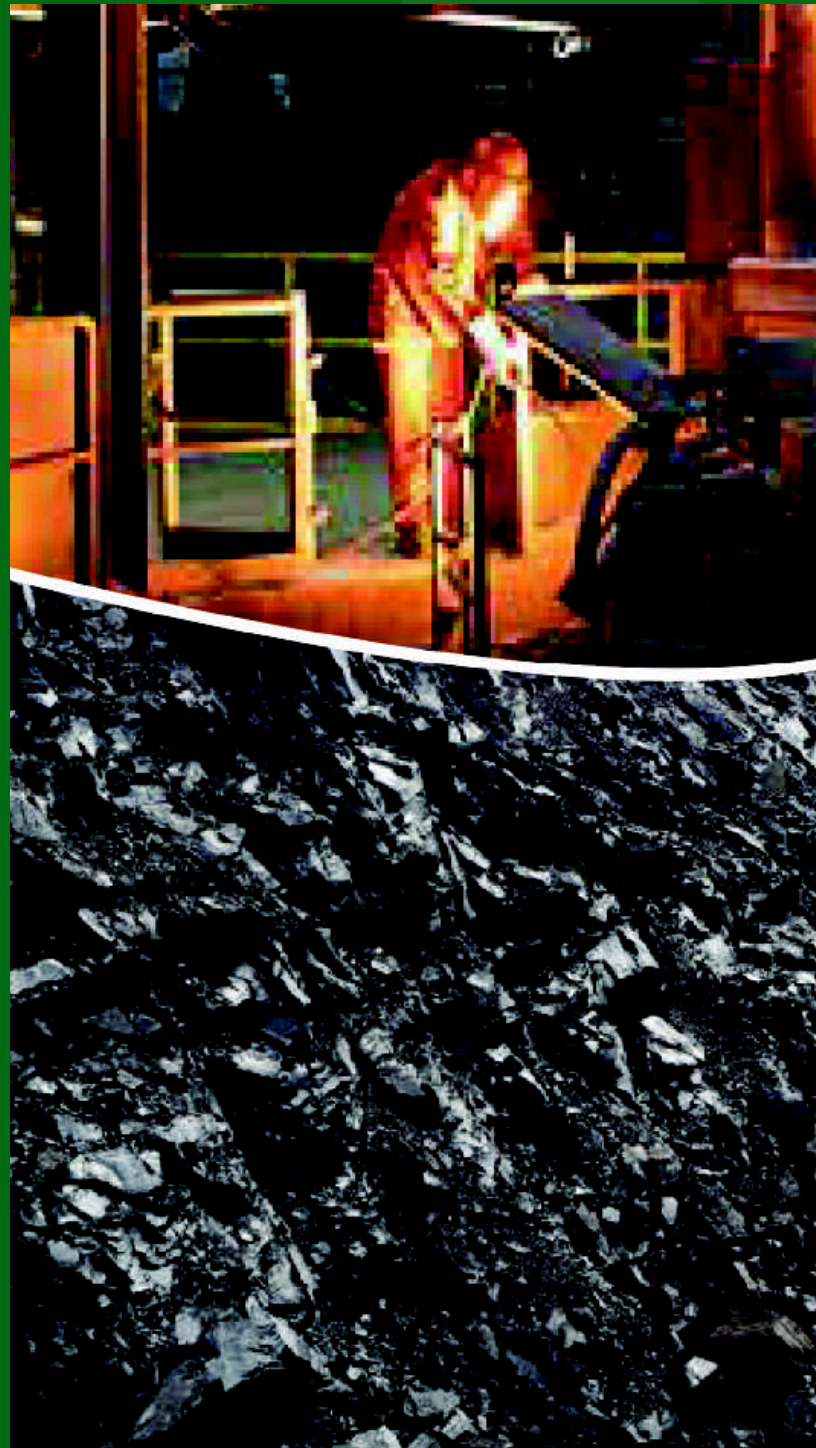

Equally transformative are our solar **Backsheets**, engineered for long-lasting performance in all environmental conditions. With a focus on high thermal resistance, superior adhesion, and reliable barrier properties, our **Backsheets** protect solar modules from external stresses, ensuring sustained performance over their lifespan. These innovative solutions reflect our dedication to driving solar module efficiency and contributing to global climate sustainability.

**Alishan Green Energy** doesn't just manufacture materials; we empower the solar industry with products that are redefining standards, delivering unmatched quality, and setting the foundation for a cleaner, greener future. Our stringent quality checks and adaptation to the IEC standards in daily practice make us a reliable partner for the solar industry. Having confirmed the product performance both at third-party labs and the customer's end, we ensure the meaningful integration of our products in India's sustainable development for energy security.

# Group Companies

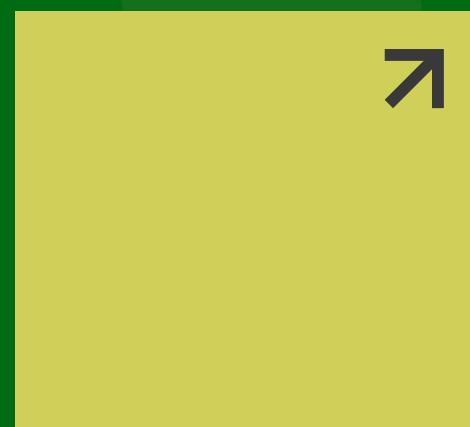

## Diamond Graphite Industries Pvt. Ltd. (DGD)

**Established in 1988**, DGD has emerged as a leader in India's graphite industry, specializing in the manufacturing of **Natural Graphite Powder** and **Flakes**. With access to high-quality graphite mines in Odisha and a state-of-the-art production facility in Kantabanji, DGD serves diverse industries like refractories, batteries, lubricants, and steel manufacturing. Our commitment to quality ensures that our graphite flakes are 100% free from silica and sourced from the finest ores globally.

Beyond graphite, DGD has diversified into construction and real estate, delivering landmark projects like Alishan Lifestyle and Alishan East Park, reflecting our innovation and dedication to quality.
